School Class Mug Instructions

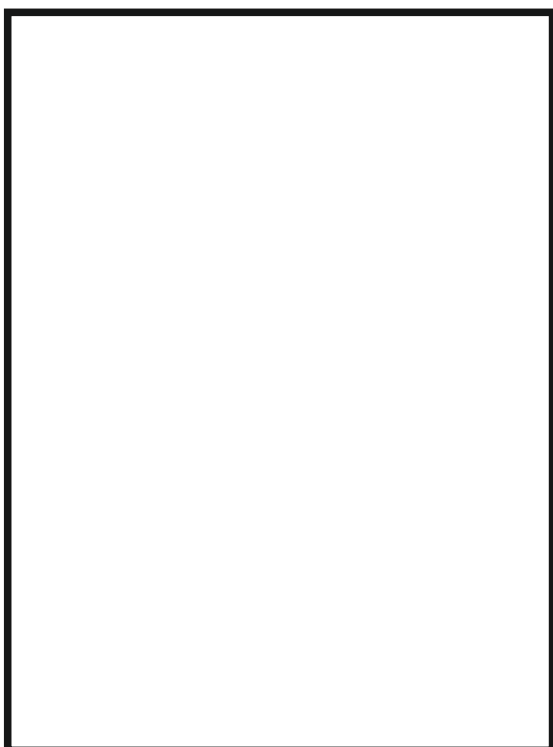

We're creating a school class mug featuring drawings from all pupils in the school. To help us produce the best possible print, we ask teachers and staff to guide the children as they complete their drawings in the box provided.

Please ensure the children follow the guidelines below so every portrait is clear, bold and this way the mug prints will be clear and sharp. Consistency across all drawings helps the final mugs look their best.

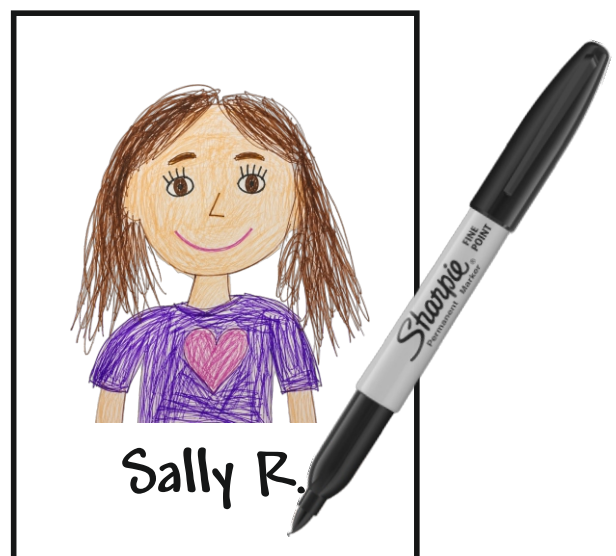

Guidelines for Teachers & Staff

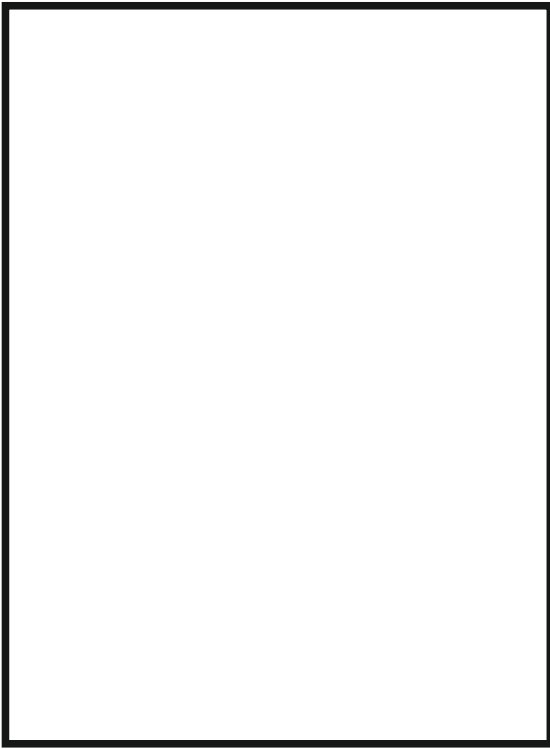

- Children may draw either a full figure or just the face — both are perfectly fine.
- Ensure each child keeps their drawing inside the box.
- Encourage children not to draw too small — larger drawings print much more clearly.
- Use coloured pens, as they will reproduce well.
- Children can add simple or detailed features, as long as they stay within the box.
- Please help each child write their name or initials inside the box, underneath their drawing.
